Re: Grand Jury Notice findings for Special Service Districts
Leland Meadows Service District

This is in response the Grand Jury report on special service districts that was received by the Leland Meadows service district board and the Leland Meadows Homeowners Association Board.

Both boards address the issues of the service district. The boards meet twice a year And have five members on the board. Members correspond throughout the year regarding any issues that may arise. The Boards are aware and have knowledge of Brown act and the Sterling Davis act as advised by an attorney.

The water /sewer district has been diligent at updating maps of the system throughout the Designated property boundaries of Leland Meadows. There is a trained manager to oversee The operations of both systems. The board has an annual budget and financial report that Is reviewed and approved by the board each year. It is also made available to all customers In the district that.

Sincerely,

Marvin Palmer by M. Palmer
