Health and Human Services Agency Director

## **PRESS RELEASE FOR IMMEDIATE RELEASE**

June 9, 2020

### **Update on Modification to State Stay-at-Home Order**

Governor Newsom and State Health Officer Dr. Sonia Angell have announced that additional activities may be included in the roadmap to modifying the statewide stay-at-home order. At this time, no additional sectors are permitted to open in Tuolumne County, as detailed in a local health officer order on Friday June 5, 2020. Dr. Liza Ortiz, Interim Tuolumne County Health Officer, intends to issue an updated local Health Officer Order this Thursday, June 11, 2020, accordingly. The planned June 11, 2020 Health Officer Order will take effect at midnight June 12, 2020.

The local Health Officer Order will detail sectors may open at midnight June 12, 2020. At this time, the following sectors are expected to be included in the local Health Officer Order.

Statewide:

- Day camps
- Schools (updated from previous guidance)
- Childcare (updated from previous guidance)
- Professional Sports (without live audiences)

Guidance for these sectors can be found here: <https://covid19.ca.gov/industry-guidance/>

Additionally, as a variance county:

- Campgrounds, RV Parks, and Outdoor Recreation
- Hotels, Lodging, Rentals (for leisure)
- Cardrooms, Racetracks
- Movie Theaters and Family Entertainment Centers
- Restaurants, Bars, and Wineries
- Fitness Facilities
- Museums, Galleries, Zoos, Aquariums

Guidance for these sectors can be found here: <https://covid19.ca.gov/roadmap-counties/>

Facilities are required to review and follow the industry-specific guidelines, complete their preparedness plan or checklist, submit a copy to Tuolumne County Public Health at [Health@tuolumnecounty.ca.gov](mailto:Health@tuolumnecounty.ca.gov), and post the document in their facility for the public to view.

Even as additional activities are opening, that does not necessarily mean that they are safe or risk-free. There continues to be risk for disease transmission, and Public Health will monitor disease activity and adjust local health orders as needed.

Dr. Ortiz continues to recommend that individuals who have traveled outside of the county, who interact with the public as part of their job, who work in essential critical infrastructure jobs, or have interacted with people outside of their household, get tested for COVID-19. No-cost testing is available to anyone at the state testing site in Angels Camp. Information and appointments are available at <https://lhi.care/covidtesting>
